Vivid Medical Inc.
Vision to Help Save Lives

TECHNICAL SUPPORT INSTRUCTIONS

Subject: **Setup of VividTrac with QuickTime on a Apple Mac computer.**

OVERVIEW:
- The current version of VividVision software from Vivid Medical is not supported on Apple MAC computers. Users can use QuickTime and other video display applications of their choosing. Below are the instructions to setup QuickTime with VividTrac.
- Note - QuickTime supports video recording.

INSTRUCTIONS:

STEP 2 – Click on "New Movie Recording"

STEP 4 – Your live video stream for the VividTrac device should now be displayed.

STEP 3:
(a) Connect the VividTrac to the computer
(b) Set the Camera source to "VividTrac"

STEP 1 – Open QuickTime

ADDITIONAL NOTES:
- WARNING: Video conferencing applications like PhotoBooth, iChat, Skype and FaceTime will reverse the video image right-left.
